Wedgewood South Assisted Living in Lubbock celebrated the installation of beautiful stained glass windows and cross in its Brandes Chapel/Theatre in January. Wedgewood South offers three levels of assisted living and three floor plans. For more information, call Christina Stephens at (806) 798-1011 or [click here](#).

There is an acute need throughout Texas for foster families who are willing to care for foster children, especially those with special needs. Unless loving families come forward, many special needs children will be forced to spend their lives in nursing homes away from the personal care and love that every child needs. Training, financial assistance and additional services are available for foster parents. Children are eligible to receive in-home skilled nursing services and physical, occupational and speech therapy. Make a difference in a child's life. Call (866) 700-0014 or [click here](#).
